PROFESSIONAL SUMMARY

Front-End Developer and AI Agent Builder with practical experience creating responsive web interfaces, AI-powered workflows, automation systems and database-backed applications. Trained in MERN stack development and building modern solutions with React.js, Next.js, JavaScript, Tailwind CSS, n8n and AI coding tools. Combines software development, automation and entrepreneurial experience to create practical digital solutions.

PROFESSIONAL EXPERIENCE

Founder & Lead Developer
Puraton Labs • July 2026 – Present • Rajshahi
puratonlabs.puratonpothik.com

- Founded a software and automation agency focused on custom digital solutions and utility tools for commercial clients.
- Designed and deployed AI agents for business automation using self-hosted n8n workflows.
- Developed scalable POS software with responsive front-end interfaces and relational database architecture.
- Accelerated development using Lovable, Claude Code and Replit.

Founder
Puraton Pothik • 2024 – Present • Rajshahi
puratonpothik.com

- Built and managed a content-driven web and digital media brand focused on local history and wildlife.
- Grew the associated YouTube channel to 30,000+ subscribers through documentary-style content.
- Maintained web properties and an e-commerce platform while handling SEO, multimedia production and partnerships.

Front-End Developer
Sopno Computer Training Center • — • Muladuli, Ishwardi, Pabna
sopnocomputertc.netlify.app

- Developed and maintained responsive front-end interfaces supporting the center's digital presence.
- Used Lovable, Claude Code and Replit to prototype UI components and debug development issues.
- Managed cloud project integrations and development environments.
- Supported digital campaign operations by tracking ad budgets and impression metrics.
